

STAR PERFORMER FOR SEPTEMBER'23

In every organisation there are individuals who consistently go above and beyond, setting new standards of excellence for others to follow. Recognising these individuals is not only a matter of appreciation but rather the fulcrum on which success of an organisation depends.

We at Tata Pigments have always believed that our people are our biggest assets. The most recent example of this is Mr Subhendu Das, Sr. Officer R&D. Subhendu through his relentless efforts has contributed immensely to the organisation by developing 'Bituminous Paint', a product which not only helps us fulfil one of the long-standing demands of our customers but also brings in a new potential helping us diversify our product portfolio. This indeed is a remarkable breakthrough for us at Tata Pigments.

In pursuit of his contributions, Mr Subhendu Das was recognised as Star Performer for Sept'23.

Let's all join hands to wish Subhendu for this wonderful feat.

Keep up the good work!!
