

## Tata Pigments Awarded CII – IGBC’s Prestigious GreenPro Ecolabelling Accreditation

In Dec'2022, TPL received the prestigious 'GreenPro' Ecolabel certification from Confederation of Indian Industry (CII) - Indian Green Building Council-(IGBC), for its entire range of finished products. This award of the GreenPro Ecolabel is a significant milestone towards Co's continued step towards significant progress of sustainable practices and ensuring the lowest environmental impact across its operations.

A detailed assessment was carried out by CII GBC's team, where TPL's all finished product's performance in the value chain were evaluated, as per 'GreenPro' standards & holistic framework of paints & coatings segments. and will from now on be certified as an environment friendly 'green product', which meet specific functional requirements for a variety of applications like... S.I.O. Pigments, decorative & industrial paints products.

By adopting eco-labelling initiatives for its products, Tata Pigments is aiming to promote sustainable products to meet customer requirements as well as to evaluate and improve its products' performance over its life cycle. With this, TPL is looking forward to co-creating a 'carbon smart' future with our customers - Individual House Builders & Construction companies - for the nation." This certification will empower an environmentally-conscious customer in making an informed choice to buy products that are with environment-friendly footprint, having the lowest environmental impact

Overall objectives of this certification is to facilitate market transformation of green products in India.
